9. NEW BUSINESS:

- A. Information, discussion and possible action:** Presentation by Tri-City Sanitary District and possible approval to submit a Letter of Support of the Central Arizona Governments (CAG) Section 208 Water Quality Management Plan for a new wastewater collection and treatment system.

Mr. Robert Jacques, TRSD Board President, presents this item to Council. Mr. Jacques comments on the support they have received from their community, surrounding local governments and the State. Mr. Jacques explains why they need to put in a wastewater collection and treatment system. He is here tonight to request a Letter of Support from the Town of Miami. Mr. Jacques gives a brief overview of the project up to this date. The Town of Miami had given them a Letter of Support in 2019; since that time, they have made some revisions to their plans and are now requesting a Letter of Support for their updated project. Mr. Jacques gives a brief overview of their process of negotiating with BHP for a wastewater treatment plant site. Mr. Jacques announces that TRSD now has a site for the wastewater treatment plant but cannot disclose the location of the site until all negotiations are complete. Mr. Jacques reviews the three phases of the project. Discussion regarding the three options that were available to TRSD in the previous planning phase of this project. Mr. Jacques explains the options were: a) a no action option b) to take all the wastewater flow to the Town of Miami c) to split the wastewater flow between Globe and Miami and d) to take all the wastewater flow to the City of Globe. Mr. Jacques explains that this all took place before his time on the Board, but explains his understanding of what took place at the time those options were presented and how they came to the decision to build their own plant. Mr. Jacques comments regarding the concern with the effluent water and that all of it would go to the Town of Miami and they would lose all control of the effluent water. Mr. Jacques comments on one benefit of building their own plant and that is the revenue from the effluent water. Mr. Jacques explains that they are a non-profit, but the revenue would lessen the impact on the residents and enable them to purchase equipment. Open discussion and comments regarding the areas to be serviced by TRSD and what possibility is there that TRSD will take customers the Town of Miami is already servicing. Mr. Jacques states they have no interest in trying to infiltrate what the Town of Miami is already servicing; the only way they can serve them is if they petition to join TRSD. Brief discussion regarding the history of Bechtel Tract and what is happening with

that area now. Councilmember Reiman states he has concerns with Mr. Jacques comment of "if something doesn't happen by 2024, he is out of here". The Town of Miami is left with his statement of "we would never do this or that", then you are gone. That has been the story of Tri-City's organization over the past 15 years that he is aware of. Councilmember Reiman asks why would they need a new letter from the Town. Mr. Jacques explains that due to plan revisions, CAG is requiring an updated Letter of Support. Councilmember Sosh questions what difference it makes if the Town gives their approval or not; they are going to do it no matter what. Mr. Jacques states that Councilmember Sosh is right, they are going to do this. Councilmember Gonzales questions how can the Town of Miami vote in support of this if we do not know the location of their wastewater treatment plant. Open discussion and comments regarding the TRSD wastewater collection and treatment plant project. Councilmember Gonzales comments regarding comments being stated "what is best for the community" but what is best for the Town of Miami would be for TRSD to tie into the Town of Miami's system. The Town would have had that influx of money coming in and he is tired of the Town of Miami always getting the "short end of the stick". He is here to make the best decisions for the citizens of Miami. Councilmember Reiman moved to draft a letter, similar to the one in the packets (inaudible) signed by the Mayor and move forward.
